PROFILE

Student with basic knowledge of tools such as Python, Excel, and SQL, and I enjoy working with data to find patterns and insights. I am eager to learn and apply my analytical skills in a real-world environment. Curious about data and how it can be used to understand real-world problems.

SKILLS

- **Python (Basic)** – Used for simple data analysis and problem-solving
- **Excel** – Familiar with formulas, data organization, and basic charts.
- **SQL (Basic)** – Able to write simple queries to retrieve data.
- **Data Analysis** – Understanding of analyzing data to find patterns and insights
- **Data Cleaning** – Basic knowledge of organizing and preparing data
- **Problem Solving** – Able to approach problems logically and find solutions
- **Attention to Detail** – Careful while working with data to avoid errors

PROJECTS

Simple SQL Data Query Project
